

Note:		
<p>Grading: Records are visually graded.</p> <p>Nm-: virtually perfect record.</p> <p>Vg++: very acceptable copy, plays well and looks well. May have very slight defects on record that do not affect playback.</p> <p>Vg+: more defects will be present. (ie. scuffs, fine hairlines that do not affect play; sound playback may have slight crackle on run in, but not audible through playback. Overall, great copies for dj'ing.</p> <p>VG: Defects may affect playback, pops, slight crackles, very light distortion may be present on playback. A good play copy of records; Fine for all but the most nitpicky of dj's .</p> <p>I have tried to list any noticeable defects for A/B side in notes, especially if they are grossly different than visual grade indicates.</p>		
<p>Every record > \$100 can request sound clips to verify play grade. Every record > \$200 must verify play grade with sound clip to ensure satisfaction. Play is on technics 1200 w/ shure whitelabel cartridge set at 2 g.</p>		
<p>records > \$75 require tracking, insurance. All international orders require tracking. No returns unless grade is grossly misrepresented. All records will be audio checked and photographed prior to shipping. Price adjustments will be made downward if grade is found to be incorrect, prior to shipping orders. All inquiries to: Alpinerabbit@gmail.com</p> <p>Lastly, I'm a one man show, and not typically a seller. Please be patient and I'll let you know when I'm shipping.</p>
